

Charities Appeals Supplement

The Charities Appeals Supplement continues to help develop fundraising revenue streams for charities through legacies, corporate support and donation.

This section is written by charities detailing their appeals. It is easy to use with a categorised index below and an A–Z index at the end.

If your client is considering leaving a legacy to charity, please encourage them to browse through the appeals when making that important decision. Please mention the Charities Appeals Supplement when contacting a charity.

The team at the Charities Appeals Supplement would like to thank you for your continuing support; especially those who have left legacies to our featured charities over the last year.

**REMEMBER A CHARITY
IN YOUR WILL**
Help the work live on...

REMEMBER A CHARITY

- An annual study by the charity coalition Remember A Charity has found that 27% of charity donors aged 40 years and above have written a gift to charity in their will or are preparing to do so. This compares to 21% of donors in this age group a decade ago.
- Only 9% of donors in the 40-plus age bracket rejected the idea of leaving a charitable bequest.
- Among solicitors and will writers, more than two-thirds (68%) always or sometimes raise the topic of gifts in will with their clients.
- In 2019, 15.8% of wills going through probate included a charitable bequest.

Remember a charity in your will and help the good work live on.

www.rememberacharity.org.uk

Will you remember
the horses at
Redwings
Horse Sanctuary?

Remember Redwings in your Will and save the lives of hundreds of horses in desperate need for years to come.

Call **01508 481030** or email legacies@redwings.co.uk to find out how to leave a legacy today.

Thank you

If you
love horses,
remember them!

Bournemouth Symphony Orchestra Benevolent Fund

Over 60 years of caring for the needs of BSO musicians

The fund is a charity and run by musicians for musicians with some extra help from BSO supporters. It gives financial assistance to players who are ill or no longer receive sick pay from the BSO, funds medical bills and alleviates financial hardship. Like so many charities we are dependent upon public donations and during the last 10 years it has been difficult to match donations with calls on the fund. BSO players always host an annual concert, giving freely of their time to raise money for their colleagues. The fund relies on voluntary donations as well as the self funded concerts. It is administered by volunteers, there are no employees and our overheads our minimal so every pound given can help a sick or injured player.

THE BENEVOLENT FUND FOR NURSES IN SCOTLAND

*THE FUND WHICH
WAS STARTED IN 1925
IS STILL NEEDED TODAY*

The Fund for Nurses was established to give assistance to members of the profession who have trained or worked in professional posts in Scotland.

Financial grants are given to:

- Individuals of any age who are experiencing financial difficulties due to their inability to continue working.
- Retired members of the profession who receive little or no pension.

Sadly more and more nurses are finding it necessary to seek our help and through your generosity, we are able to offer additional support in the form of single grants to those less fortunate members of our profession.

The Fund is administered by a Committee of Trustees, most of whom are members of the nursing profession.

**Donations may be sent to
the Secretary at the Registered Office**

InDependent Diabetes Trust

Do You Have Diabetes?
Do You Know Someone with Diabetes?

As a small charity with a big mission
– *we need your help...*

We offer free support and information to people with diabetes, their families and health care professionals on the issues that are important to them.

Our Helpline offers a friendly, understanding ear when the going gets tough. Your help will enable us to continue to support people with diabetes and provide much needed aid to children in developing countries.

We rely entirely on voluntary donations. So if you are thinking about making a donation to charity, please consider helping us to continue to help people with diabetes. Please make donations to "Diabetes Trust Research and Care Fund."

If you believe in reincarnation there are some animals you wouldn't want to be

Imagine a life of imprisonment in a cramped cage and being the subject of constant experimentation; a lifetime of suffering followed by a painful death. That's the cruel and futile fate suffered by millions of laboratory animals in the name of research.

The National Anti-Vivisection Society (NAVS) is the world's premier and leading group, working for an end to the suffering of animals in laboratories.

Working within the law, we lobby Parliament, produce scientific reports, educational materials and videos; conduct undercover investigations and expose law breaking. We fund non-animal scientific and medical research.

Please help us to help laboratory animals by making a bequest today to the National Anti-Vivisection Society, Vox Studios North, 1 Durham Street, London SE11 5JH

For a free guide to making a will to help laboratory animals call us today on 020 7630 3340 or visit www.navs.org.uk

Have you thought of including Blood Pressure UK in your Will?

A lasting way to help others with high blood pressure

Finding out that you have high blood pressure can be traumatic, particularly if you are young. Most people don't know anything about the condition and worry about how it will affect them and those around them.

Blood Pressure UK

Helping you to lower your blood pressure

Blood Pressure UK is here to help. With our information packs, range of leaflets and our helpline, we provide reassurance and support to those who need it. All of this work is expensive, and while membership subscriptions and donations help enormously, leaving a gift in your Will can help us make a bigger difference.

Leaving a gift isn't as complicated as you might think. It doesn't have to be a large amount, and it will give you the assurance that our work will continue long into the future.

Obviously, providing for your family and friends comes first, but once that is done please consider leaving a gift to Blood Pressure UK in your Will.

We have put together a simple leaflet to guide you through the process. You can get a copy by telephoning (020) 7882 6255, visiting our website at www.bloodpressureuk.org or by writing to Blood Pressure UK, Wolfson Institute, Charterhouse Square, London, EC1M 6BQ.

Don't leave it to chance... leave it to **LAST CHANCE**

As animals can't speak for themselves it falls to me to ask you to consider leaving a legacy to Last Chance Animal Rescue. Any money that we may receive will be spent entirely on the running and improvement at the Centre, which is dedicated to the rescuing, rehabilitation and re-homing of dogs and cats etc.

Many of the number we receive have found their way to our door through circumstances such as their beloved owner passing away, may that door always be open. Many are elderly, in their twilight years, and would just love to find a caring retirement home, something we have great success and pleasure in finding for them, and we continue to care for them, young and old, long after they are settled in their new loving homes, by offering all kinds of support, including financial if needed, for their continued welfare and well being.

As you can imagine, this level of commitment doesn't come cheaply, which is why I am appealing to you to remember Last Chance if possible, when you make your will. They do say... where there's a Will there's a way!

Last year we helped over 80,000 wild birds and animals like Rudolph

Please help me get better

Specialising in hedgehogs, our caring teams save lives every single day of the year. Our aim is simple. To treat all injured British birds and animals, then return them to the wild. Like Rudolph, who was orphaned at Christmas time, just five days old. The road accident which killed his mother left him with three badly broken legs. Our specialist care saved this poor little deer from suffering and he is now facing a brighter future. But it is only with your support we can help casualties like Rudolph, so please remember Tiggywinkles in your Will.

Our late friend **Dame Thora Hird** was an ardent supporter of our work. She actively encouraged others to help us secure funding for our lifesaving work to continue. Your legacy will ensure help is always at hand for all British wildlife; in Dame Thora's own words, *"All the little wild creatures and I thank you so very much"*.

 Email: lord.whisky@btinternet.com

Founder Margaret Todd's work with animals began at a very early age when she looked after a German Shepherd called Trixie. When Trixie went back to her owner, she decided she wanted to be Margaret's best friend and escaped so many times, her owner decided to give her up. After this Margaret took many homeless animals into her parents home, nursing them back to health before finding new homes for them. In the 1970's Margaret, together with husband Ron, son Alex and daughter Tina, opened a sanctuary in Kent and became a registered charity in 1981. Since then the sanctuary's work has increased enormously, taking in all kinds of domestic and wild animals. In 1993 Margaret was awarded the MBE for her contribution to animal welfare and in 1994, a veterinary clinic for people on low income was opened, a cause very dear to Margaret's heart. Without these clinics many animals would simply go untreated. We receive no government funding and without your legacies and donations our work could not continue. Please support our work helping animals in need.

If you knew animals were being abused, could you rest in peace?

Sadly, throughout their lives, the last thing many animals experience is peace. Pepe the spider monkey, for example, was chained by his neck and imprisoned in a circus. They snapped off his canine teeth and kept him in isolation.

He was one of the lucky ones because he was rescued by Animal Defenders International (ADI). He can now live in peace with his own kind. ADI is a major international force in animal protection.

Please help us to help other animals like Pepe to live in peace by making a bequest today to Animal Defenders International.

For a free guide to making a will to help stop animals being abused call us today on 020 7630 3340 or visit www.ad-international.org

Help Finance An Evolution

Will you leave a lasting legacy of compassion and help scientific advancement? The Lord Dowding Fund finances scientific and medical research without the use of animals. We believe that cruel animal techniques have no place in 21st century science.

We have supported major advances in many fields including neuroscience, cancer research, and safety testing – we developed a humane British Standard Test for the toxicity of dental fillings. Your legacy could help save the lives of animals and advance scientific research.

Help finance an evolution in medical science and leave a lasting legacy, with a bequest today to the:

Animals and birds

Animal Defenders International (ADI) works worldwide on animals and environmental protection: wildlife trafficking, captive animals in entertainment industries, welfare, legal protection for animals, environment, education, advanced techniques to replace animals in research.

ADI has rescued hundreds of suffering wild animals including bears, monkeys, lions, tigers and others from illegal circuses and traffickers. Most recently, ADI relocated 20 suffering lions and tigers from circuses in Guatemala to sanctuaries, including the ADI Wildlife Sanctuary in South Africa.

Help end animal suffering and protect our shared environment by making a bequest to Animal Defenders International.

Thank you.

Sadly more and more nurses are finding it necessary to seek our help and through your generosity, we are able to offer additional support in the form of single grants to those less fortunate members of our profession.

The Fund is administered by a Committee of Trustees, most of whom are members of the nursing profession.

Donations may be sent to the Secretary at the Registered Office.

Medical research and welfare

Blood Pressure UK is the UK's leading charity dedicated to lowering the nation's blood pressure to prevent disability and death from stroke and heart disease. Since October 2000 we have been making a real difference to the 16 million people affected by high blood pressure in the UK.

We work to ensure that high blood pressure is at the top of everyone's health agenda: within the Government, among health professionals, in the media and for every adult in the UK. Our vision is that everyone will know their blood pressure numbers, in the same way that they know their height or weight, and take steps to keep them healthy both now and in the future. High blood pressure can be treated and prevented.

Blood Pressure UK relies on donations and legacies. Your invaluable support will help to ensure they continue its important work and make a vital difference to the lives of those at risk from the effects of high blood.

Over 200 years of caring for the needs of artists and their dependants

The ABF are proud to have served the artists' community for over 200 years and now we have launched a new grant scheme to support working artists at key moments in their careers.

The ABF believes that many talented artists face great difficulties in sustaining and developing their careers. Our grant scheme is designed to support artists who can demonstrate how an award can assist them in consolidating and continuing their career as a professional artist.

The scheme will make it possible for artists to seize creative opportunities and develop their work for the future.

Please help us to continue to our work with the existing beneficiaries and to make funds available to other artists in times of need.

Benevolent Fund for Nurses in Scotland

A company limited by guarantee registered in Scotland No: SC357442

Trades and professions

The Benevolent Fund for Nurses was established in 1925 to give assistance to any member of the profession who trained or worked in professional posts in Scotland.

Financial grants are given to:

- ▶ Individuals of any age, who are experiencing financial difficulties due to their inability to continue working.
- ▶ Retired members of the profession who receive little or no pension.

Bournemouth Symphony Orchestra Benevolent Fund

T: 07872 954160
E: rbagley82@gmail.com
W: www.bsobenevolentfund.co.uk

Registered charity no: 1163778

Cultural and environmental / Social services and welfare / Trades and professions

We make grants to musicians and staff who are employees of the Bournemouth Symphony Orchestra and other individuals who have made a significant long-term contribution to the orchestra. The grants are to relieve hardship caused by sickness accident or infirmity. Funds are raised from the net proceeds of an annual concert and donations from supporters.

During the years we have helped players who are on long-term sick leave or with a contribution towards private medical treatment. More recently there has been a sharp increase in the assistance we give players for private medical treatment, including major operations on joints. This is normally required as a result of repair to a repetitive strain injury incurred whilst playing. This is also a reflection on the lengthening waiting lists for NHS treatment. If there is a delay in treatment, members are unable to work, sometimes for many months which can cause hardship for their families.

We have recently marked our 60th year as a benevolent fund but in current financial times it is becoming increasingly difficult to match our aspirations with a reduced income. But we are boosting our fundraising efforts to ensure that we can be here for the next 60 years!

Brain Tumour Research

Medical research and welfare

The Foundation for Liver Research funds innovative research programmes to address the challenges of liver disease. Research is carried out in a purpose-built research Institute with four floors of specialist laboratories.

*A legacy in your Will can help to ensure
the long-term research work of the Foundation*

Friends of the Animals

17a Riverway
Newport
Isle of Wight PO30 5UX
T: 01983 522 511
W: www.friendsoftheanimals.co.uk

Registered charity no: 1000249

Animals and birds / Education

Your wish to help animals will be assured by including a gift in your will to "Friends of the Animals". The primary objective of the Charity is to help animals NOW, We do not 'sit on funds'. Concentrating on 'preventative' work such as spays, neuters, inoculations, boosters and free engraved discs; we never destroy a healthy animal, and keep admin costs to a minimum.

We have:-

- ▶ Re-homed 9,000+ animals.
- ▶ Spayed/neutered 41,300+ animals.
- ▶ Built stables for donkeys and ex-pit ponies.
- ▶ Currently funding 490 rescued farm animals.
- ▶ Distributed over 1,712,000 items of pet food.
- ▶ Supplied almost 20,000 engraved, identity discs FOC.
- ▶ Given numerous educational talks on animal welfare.
- ▶ Wormed and inoculated thousands of animals – many for the first time in their lives!
- ▶ Stepped in to ensure food, safety and new homes for 97 Urban Farm animals, when their owner went out of business.

The majority of animals that come into our care arrive in a poor state. Our reward is seeing those same animals go to their new homes a few weeks later: well fed, groomed, wormed, inoculated and neutered.

VETERINARY TREATMENT is – and always has been – BY FAR OUR BIGGEST OUTGOING.

You have many choices of Charities to support but no one appreciates it more – or tries harder than we do – to get the very best possible from every penny donated.

Your help today will ensure a happier tomorrow for countless animals. I send my grateful thanks.

Helen Sinclair MBE (Founder)

Independent Diabetes Trust

PO Box 294
Northampton NNI 4XS
T: 01604 622837

E: enquiries@iddtinternational.org
W: www.iddtinternational.org
Registered charity no: 1058284

Medical research and welfare

The Trust was set up in 1994 by people with diabetes for people with diabetes. We offer support and understanding to those with diabetes and their families. We provide a free telephone listening service and information leaflets to enable people with diabetes to have an informed choice of treatment and to help with the day to day difficulties of living with diabetes.

Around three quarters of a million people in the UK have insulin requiring diabetes and the incidence of diabetes in children is increasing. It is essential that we support research to help this very vulnerable group faced with a lifetime of diabetes. Your support will enable us to further develop our programme to help children and provide information for teachers about the needs of children with diabetes.

Diabetes can cause blindness, kidney failure, nerve damage and heart attack that severely affect the lives of all those living with diabetes. A cure for diabetes is still illusive so the Trust supports

The next Charities Appeals Supplement will appear in the 25 March 2022 issue of *New Law Journal*.

To advertise, please contact:
advertisingsales@lexisnexis.co.uk

research that will help to improve the daily lives of people living with diabetes now. The studies we support involve people with diabetes under normal treatment conditions to ensure that it reflects 'real life' conditions. We also collate information from the experiences of people with diabetes to help to inform others.

We collect unused, in-date insulin to send to clinics in developing countries where people die for lack of affordable insulin.

Please help us to continue our work, making cheques payable to 'Diabetes Trust Research and Care Fund'.

Kent CT4 6AN

T: 01303 862622

F: 01303 863007

E: lord.whisky@btinternet.com

Animals and birds

The Lord Whisky Sanctuary Fund is a lifeline for animals of all kinds.

We provide sanctuary to animals who become homeless or who have been injured or abused and vital veterinary care to those on low incomes. We also provide cattery/kennel facilities for your pets whilst you are away from home.

Lord Whisky was named after a Jack Russell who came to live at the Sanctuary when he was four years old, having had six previous homes. He lived with the founder, Margaret Todd, and her family until he had to be put down at the age of 22. Because of his personality it was decided to name the charity after him.

Since then there have been hundreds of 'Lord Whisky's' plus cats, rabbits, horses and donkeys, many of whom go on to loving homes. Others who, like Lord Whisky, have special needs remain at the Sanctuary for the rest of their lives, enjoying the lovely Kent countryside.

The charity receives no government funding and relies entirely on donations and legacies to continue its contribution to helping animals and owners.

The aims are adhered to without exception and the interest of each individual animal is our primary concern. Expediency is never a consideration and each animal is welcome to stay in our care for as long as it takes for that special home to come. We make no apology for looking for the right homes for each animal and not animals for people. This does, of course, work to the advantage of the new owner.

No animal accepted is ever destroyed.

Animals and birds / Medical research and welfare

Founded 1875, the National Anti-Vivisection Society (NAVS) is the world's premier society working to end the suffering of animals in laboratories. We educate and promote the replacement of animal experiments with sophisticated, non-animal methods. NAVS studies include legal and scientific research and critiques, investigations of laboratory practices, reports, videos. NAVS supports the replacement of animals with advanced, non-animal, scientific and medical research.

Every year millions of animals suffer and die in cruel and unreliable experiments. Please consider remembering the NAVS in your Will to end the suffering, and press for introduction of advanced techniques, relevant to people.

Thank you.

Redwings Horse Sanctuary

Animals and birds

Redwings believes that every horse, pony, donkey and mule has the right to a happy and healthy life, free of fear and neglect.

The 100% publicly funded charity rescues neglected and abandoned horses from all over the country, giving them a safe place to live for the rest of their days, and is currently home to over 1,500 – making Redwings the UK’s largest horse sanctuary.

As well as providing a place of sanctuary to rescued horses, Redwings has five visitor centres in England and Scotland that enable supporters to see how their kind donations really can make a difference to horses and donkeys in need.

Redwings’ Aylsham Visitor Centre in North Norfolk was funded by the gifts people had left in their Wills and has been vital in enabling the charity to continue to provide homes for the increasing number of abandoned horses in desperate need of love and care.

Gifts in Wills make up the largest proportion of Redwings’ income and the charity simply wouldn’t be able to exist without them. Remembering Redwings Horse Sanctuary in your Will is a wonderful way to support the charity’s work and leave a lasting legacy that will help them to help horses and donkeys for generations to come. Whether your gift is large or small, every donation makes a real difference to the future of Redwings’ residents.

Social services and welfare

Britain is in a housing crisis. Times are tough, rents are rising, and many families are struggling to keep a roof over their heads, let alone get on the property ladder. For others, redundancy or illness can make people fall behind on the rent or mortgage. And every day, millions of people wake up in housing that’s run down, overcrowded or dangerous.

At Shelter, we hear from people suffering from health problems and mental health issues, such as depression and stress, and families whose children are missing out on their education or are being bullied – all as a result of bad housing or homelessness.

That’s why we provide free, confidential advice and support via our website, helplines, and face to face local services. We help people to find and keep a home in a place where they can thrive, and we tackle the root causes of bad housing by campaigning for new laws, policies and solutions.

Shelter believes everyone should have a home

To continue this work, we rely heavily on the gifts that supporters leave us in their wills. That’s why remembering Shelter in your will is one of the most important ways that you can help.

For your guide to including Shelter in your will, please call Katie Small directly on 0344 515 1746 or email legacies@shelter.org.uk.

Animals and birds / Conservation / Education

Here at Tiggywinkles, we are dedicated to rescuing and rehabilitating British wildlife. We are open 24hrs a day, 7 days a week to help any wild animal in need and our service is free of charge. We rely on donations to provide our life-saving care for patients like Robbie the robin, who arrived in our care under unusual circumstances!

As the World’s leading teaching wildlife hospital, we have lots of students on site and one of our Level Two Animal Care students found Robbie on the pathway of our grounds. She immediately realised he needed help as he was lying flat and couldn’t fly. She rushed him into triage and our duty nurse quickly assessed his condition.

Sadly, Robbie was suffering from temporary ataxia – the loss of coordination and control of movement – and the team suspected he had sustained head trauma. To treat his symptoms, our vet put Robbie on a short course of antibiotics and pain relief. After one week of treatment, Robbie was once again flying around his cage and was ready for release.

We are so happy that we could help this beautiful bird back to the wild and although we never want any wild animal to find itself in trouble, it is nice to think that they know where to come, should they ever need help! Our doors are always open to any wild animal in need, even walk-ins! To help us care for patients like Robbie, please consider donating. We receive no government or lottery funding, so we need your help – every penny helps us help them!

Expert guidance for charities and trusts

Helping charitable organisations manage their obligations and achieve their long-term objectives

With obligations spanning a range of stakeholders such as donors, regulators, volunteers and beneficiaries, bespoke investment guidance is a must for charities.

As a Chartered, independent wealth management firm and a Bar Council Partner with a long history of providing advice to charitable boards, we can leverage our own experience to deliver an investment management plan that works to directly sustain your long-term objectives.

Our advice will take into consideration a range of factors, including specific commitments to donors, capital and income requirements, expenditure patterns, attitude to risk and current investment initiatives.

Working with trustees

We also work with trustees to source and implement group pension and protection plans to safeguard their organisation's financial stability, in addition to their staff's physical and mental wellbeing, both now and in the future.

With a transparent fee structure and caps on our ongoing charges, we're committed to ensuring that our clients are fully aware of the cost of our services from the outset.
