

# Charities Appeals Supplement

The Charities Appeals Supplement continues to help develop fundraising revenue streams for charities through legacies, corporate support and donation.

This section is written by charities detailing their appeals. It is easy to use with a categorised index below and an A–Z index at the end.

If your client is considering leaving a legacy to charity, please encourage them to browse through the appeals when making that important decision. Please mention the Charities Appeals Supplement when contacting a charity.

The team at the Charities Appeals Supplement would like to thank you for your continuing support; especially those who have left legacies to our featured charities over the last year.

## THE BARRISTERS' BENEVOLENT ASSOCIATION

The Barristers' Benevolent Association exists to support, help and comfort those members of the Bar in England and Wales and their families and dependants who are in need, in distress or in difficulties.

During the recent past we have helped barristers and their families in every circuit, often saving not only dignity but careers.

We are not nearly as well-known in the profession as we would like, and there are possibly people who qualify for our help but aren't aware of our existence... we also feel that there are other people who would be willing to contribute to the welfare of their less fortunate colleagues but who are also unaware of us.

Contact Susan Eldridge on **020 7242 4761** for further details or visit our website at **www.the-bba.com**

**Don't leave it to chance...  
leave it to LAST CHANCE**

As animals can't speak for themselves it falls to me to ask you to consider leaving a legacy to Last Chance Animal Rescue. Any money that we may receive will be spent entirely on the running and improvement at the Centre, which is dedicated to the rescuing, rehabilitation and re-homing of dogs and cats etc.

Many of the number we receive have found their way to our door through circumstances such as their beloved owner passing away, may that door always be open. Many are elderly, in their twilight years, and would just love to find a caring retirement home, something we have great success and pleasure in finding for them, and we continue to care for them, young and old, long after they are settled in their new loving homes, by offering all kinds of support, including financial if needed, for their continued welfare and well being.

As you can imagine, this level of commitment doesn't come cheaply, which is why I am appealing to you to remember Last Chance if possible, when you make your will. They do say... where there's a Will there's a way!

**Science in the service of animal welfare**

A great many animals suffer needlessly due to our lack of knowledge and understanding of their needs and how best to meet them. UFAW is unique, promoting research and education, developing practical solutions to welfare problems and providing advice to those caring for animals and to legislators.

You can make a difference. Thanks to the generosity and support of those who share our concern for the welfare of animals, we've already achieved much. By leaving a legacy to UFAW in your Will, you'll be helping us to continue our vital work on behalf of all animals. Thank you.

## The Breast Cancer Research Trust

President – Dame Vera Lynn DBE, LLD, Mmus

The treatment and management of breast cancer has been revolutionised in the last 40 years since I became President of the Breast Cancer Research Trust. The death rate has fallen by 30% in the UK and many patients now experience a personal cure. This in the main has been due to unremitting and time consuming research not only into new drugs and ways of diagnosing, assessing and treating patients but into the basic causes of breast cancer itself.

It gives me great pleasure to state that to date, we have raised over five million pounds, which has enabled us to support forty major research centres throughout the United Kingdom. The Breast Cancer Research Trust is a charity dedicated to funding clinically based laboratory project research, undertaken in recognised cancer centres or research institutions in the UK, directly aimed at improving the prevention, early diagnosis and treatment of breast cancer. 100% of all donations go towards this vital research as the Trust is run on a purely voluntary basis.

By helping us, you are giving aid and hope to all women who develop this particular cancer.

## You can make a lasting difference for millions of animals

### Caring beyond the farm gate

Around the world, millions of animals are killed for human consumption every day. However well cared for on the farm, animals are extremely vulnerable once they leave – during transport, at markets and up to the point of slaughter in abattoirs. The potential for suffering is immense.

The HSA is unique – the only UK charity totally dedicated to the humane treatment of all food animals in markets, during transport, at slaughter. You can help us make a difference for millions of animals with your support.

## YOU CAN MAKE A REAL DIFFERENCE AND SECURE THE FUTURE FOR OUR RESEARCH.

Over 45,000 men are told that they have prostate cancer every year, and each year over 11,000 men die of the disease, just in the UK. Every year the number of men dying of prostate cancer increases.

### We need new and more effective treatment.

The Prostate Cancer Research Centre is developing new treatments to improve survival. By leaving a legacy you can ensure that the research will continue to develop more effective therapy for the next generation of men with prostate cancer.

## Last year we helped over 80,000 wild birds and animals like Rudolph

### Please help me get better

Specialising in hedgehogs, our caring teams save lives every single day of the year. Our aim is simple. To treat all injured British birds and animals, then return them to the wild. Like Rudolph, who was orphaned at Christmas time, just five days old. The road accident which killed his mother left him with three badly broken legs. Our specialist care saved this poor little deer from suffering and he is now facing a brighter future. But it is only with your support we can help casualties like Rudolph, so please remember Tiggywinkles in your Will.

Our late friend **Dame Thora Hird** was an ardent supporter of our work. She actively encouraged others to help us secure funding for our lifesaving work to continue. Your legacy will ensure help is always at hand for all British wildlife; in Dame Thora's own words, *"All the little wild creatures and I thank you so very much"*.

## If you knew animals were being abused, could you rest in peace?

Sadly, throughout their lives, the last thing many animals experience is peace. Pepe the spider monkey, for example, was chained by his neck and imprisoned in a circus. They snapped off his canine teeth and kept him in isolation.

He was one of the lucky ones because he was rescued by Animal Defenders International (ADI). He can now live in peace with his own kind. ADI is a major international force in animal protection.

**Please help us to help other animals like Pepe to live in peace by making a bequest today to Animal Defenders International.**

## Helping others with High Blood Pressure

### Have you thought of Blood Pressure UK in your Will?

Finding out that you have high blood pressure is traumatic, particularly if you are young. Most people don't know anything about the condition and worry about how it will affect themselves and those around them.

But Blood Pressure UK is here to help, and with our information

packs, range of leaflets and our helpline, we provide reassurance and support to sufferers and their families. But all of this work is expensive and while membership subscriptions and general donations help enormously, leaving a gift in your Will can help us make a bigger difference.

It isn't complicated as you think, doesn't have to be a large amount and will give you the reassurance that our work helping fellow sufferers will continue once you have gone.

Obviously, providing for your family and friends comes first, but once that is done please consider a gift to Blood Pressure UK in your Will.

We have put together a simple leaflet to guide you through the process and you can get a copy by telephoning: (020) 7882 6255, visiting the website: [www.bloodpressureuk.org](http://www.bloodpressureuk.org), or by writing to: Blood Pressure UK, Wolfson Institute, Charterhouse Square, London, EC1M 6BQ.

## Protecting London’s wildlife for the future

Wildlife in the UK is declining at an alarming rate. But leaving a gift to London Wildlife Trust in your Will is a great way to make a lasting contribution to your local wildlife. These gifts, no matter how small, help us protect nature and wildlife across the capital, so that local species can thrive for generations to come.

Anyone can leave a gift to London Wildlife Trust when making a Will. It’s one of the easiest and most valuable ways you can support our important work, ensuring that we can:

- Protect the wonderfully rich and diverse nature that is found across London
- Encourage local wildlife to thrive in even the most unlikely places
- Inspire children and adults to experience the joy and wellbeing that comes from connecting with nature – even in the heart of London.

Founder Margaret Todd’s work with animals began at a very early age when she looked after a German Shepherd called Trixie. When Trixie went back to her owner, she decided she wanted to be Margaret’s best friend and escaped so many times, her owner decided to give her up. After this Margaret took many homeless animals into her parents home, nursing them back to health before finding new homes for them. In the 1970’s Margaret, together with husband Ron, son Alex and daughter Tina, opened a sanctuary in Kent and became a registered charity in 1981. Since then the sanctuary’s work has increased enormously, taking in all kinds of domestic and wild animals. In 1993 Margaret was awarded the MBE for her contribution to animal welfare and in 1994, a veterinary clinic for people on low income was opened, a cause very dear to Margaret’s heart. Without these clinics many animals would simply go untreated. We receive no government funding and without your legacies and donations our work could not continue. Please support our work helping animals in need.

# Help Finance An Evolution

Will you leave a lasting legacy of compassion and help scientific advancement? The Lord Dowding Fund finances scientific and medical research without the use of animals. We believe that cruel animal techniques have no place in 21st century science.

We have supported major advances in many fields including neuroscience, cancer research, and safety testing – we developed a humane British Standard Test for the toxicity of dental fillings. Your legacy could help save the lives of animals and advance scientific research.

Missing People founders Mary and Janet have left a legacy which has provided a lifeline to thousands in the UK.

### Join them and be a lifeline for a lifetime.

Twenty three years ago, our Founders Mary and Janet saw first-hand the real need for specialist support for families of missing people; and since then we have become experts in the field. Missing People is the only charity of its kind in the UK.

You can help make a real and long-lasting difference to the lives of missing people and those left behind by making a special pledge to Missing People.

For those who go missing, we offer a lifeline by phone, text or email 24/7 to help them find safety. For their families there is a pain that won't end until their loved one is found. We never give up on either of them.

Legacy gifts ensure that we will be able to provide this kind of support for years to come. Gifts both large and small make all the difference to the work of Missing People and will help us continue our Founders' work; and be a lifeline when someone disappears, long into the future.

Animal Defenders International is a major international force in animal protection, working on such issues as the use of animals in entertainment, the worldwide traffic in endangered species and alternatives to the use of animals in research. Recent campaign successes include the introduction of a ban on the use of all animals in circuses in Bolivia and of wild animals in Peru and Colombia.

Animal Defenders International also rescue animals in distress and, following the ban in Peru, worked with the authorities to seize and relocate over 100 animals in the biggest operation of its kind.

### Blind / Old people's welfare / People with disabilities

Many elderly people with sight loss live alone, often on a very limited income – leaving them feeling isolated.

British Wireless for the Blind Fund aims to ease this feeling by providing specially adapted radios to blind and partially sighted people.

We have been providing these lifelines to people with sight loss since 1928.

Radios offer a constant and vital link to the outside world and allow blind and partially sighted people to keep in touch with what's going on.

We rely on the generosity of our supporters, who help us to keep providing this vital service to those who need us.

A big part of our funding is through legacies – which allow us to ensure we can continue to help those who need us most.

We would be so grateful if you would consider leaving us a gift in your will.

As the UK's largest dog welfare charity, Dogs Trust cares for over 15,000 stray and abandoned dogs a year through its network of 20 rehoming centres. We believe that every dog deserves a loving home and work to match the right dog with the right owner. We never put down a healthy dog and are working towards a day when all dogs can enjoy a happy life, free from the threat of unnecessary destruction.

Dogs Trust relies on donations and legacies in order to continue its vital work. Every gift is gratefully received and helps care for so many dogs in need.

#### ABOUT OUR WORK:

Leaving a legacy or bequest to The Donkey Sanctuary can help thousands of working donkeys all around the world. The charity relies entirely on donations to support major projects in Egypt, Ethiopia, India, Kenya and Mexico and many other countries through its small grants programme.

It works to improve donkey welfare through veterinary assistance and extends education and advice to donkey-owning communities. Through sustainable partnerships The Donkey Sanctuary's experts promote training in donkey first aid, harness making and general care and welfare.

If you remember The Donkey Sanctuary in your will The Donkey Sanctuary will remember you by inscribing your name on a permanent memorial board in the Sanctuary's grounds.

If you would like a copy of the charity's Will Guide, please contact the Legacy Department on 01395 578222.

#### ABOUT OUR WORK:

The Donkey Sanctuary is a registered charity and the largest of its kind in the world. We provide specialist care and refuge to donkeys in the UK, Ireland and Europe. We also work all across the world in Egypt, Ethiopia, India, Kenya and Mexico to improve donkey welfare through community education and veterinary work.

We aim to protect donkeys and mules and promote their welfare world-wide through the provision of expert advice, training and education. Welfare officers in the UK and Ireland provide advice and practical support to donkey owners and follow up reports of neglect or maltreatment. The Sanctuary's veterinary team shares their knowledge with practitioners around the world.

Remember the donkeys in your Will and we'll remember you by inscribing your name on one of our permanent bequest boards in The Donkey Sanctuary's grounds. Registered charity no: 1000249

### Animals and birds / Education

Your wish to help animals will be assured by including a gift in your will to "Friends of the Animals". The primary objective of the Charity is to help animals NOW, we do not 'sit on funds'. Concentrating on 'preventative' work such as spays, neuters, inoculations, boosters and free

engraved discs; we never destroy a healthy animal and keep admin costs to a minimum. We have:-

- ▶ Opened four branches.
- ▶ Re-homed 8,800 animals.
- ▶ Built stables for donkeys and ex-pit ponies.
- ▶ Distributed over one and a half million items of pet food.
- ▶ Supplied 18,000 engraved, identity discs FOC.
- ▶ Given numerous educational talks on animal welfare.
- ▶ Wormed and inoculated thousands of animals – many for the first time in their lives!
- ▶ Stepped in to ensure food, safety and new homes for 97 Urban Farm animals, when their owner went out of business.
- ▶ Spayed/neutered 34,000 animals – which has prevented thousands of unwanted animals from being born into a largely uncaring world. Currently funding 460 rescued farm animals.

The majority of animals that come into our care arrive in a poor state. Our reward is seeing those same animals go to their new home a few weeks later: well fed, groomed, wormed, inoculated and neutered.

VETERINARY TREATMENT is – and always has been – BY FAR OUR BIGGEST OUTGOING. You have many choices of Charities to support but no one appreciates it more – or tries harder than we do – to get the very best possible from every penny donated. Your help today will ensure a happier tomorrow for countless animals. I send my grateful thanks.

### Animals and birds / Education

The HSA is the only charity working exclusively to improve the welfare of animals raised for food when they are at their most vulnerable – in markets, during transport and at the slaughterhouse.

For 100 years the HSA has helped to prevent the suffering of animals at these times, working to ensure that high welfare standards are developed and used beyond the farm gate.

Practical and lasting improvements are achieved through education, training, technical and best practice developments – working with road hauliers, market workers, slaughterhouse staff, retailers, and agricultural and veterinary students. Additionally, award schemes are run each year and grants are made in support of projects that lead to worthwhile improvements in welfare.

As an independent registered charity, the HSA relies on donations and legacies to continue this vital work. By supporting the HSA you can make a lasting and practical difference to the welfare of millions of animals.

*Don't leave it to chance . . . leave it to LAST CHANCE*

As animals can't speak for themselves it falls to me to ask you to consider leaving a legacy to Last Chance Animal Rescue.

Any money that we may receive will be spent entirely on the running and improvement of the Centre which is dedicated to the rescuing, rehabilitating and rehoming of dogs and cats etc.

Many of the number we receive have found their way to our door through circumstances such as their beloved owner passing away. May that door always be open.

Many are elderly, in their twilight years, and would just love to find a caring retirement home: something we have great success and pleasure in finding for them, and we continue to care for them, young and old, long after they are settled in their new loving homes by offering all kinds of support, including financial if needed, for their continued welfare and well being. As you can imagine this level of commitment doesn't come cheaply, which is why I am appealing to you to remember Last Chance if possible, when you make your Will.

If you would like us to take care of your pets in your absence please remember to include instructions to this effect and if possible inform us of your wishes.

I hope you will consider us a worthy charity. It would be wonderful to think that with your help, Last Chance could always be there to pick up the pieces in times of need. They do say where there's a Will there's a way!

Anyone can leave a gift to London Wildlife Trust when making a Will. It's one of the easiest and most valuable ways you can support our important work, ensuring that we can:

- ▶ Protect the wonderfully rich and diverse nature that is found across London
- ▶ Encourage local wildlife to thrive in even the most unlikely places
- ▶ Inspire children and adults to experience the joy and wellbeing that comes from connecting with nature – even in the heart of London

### Animals and birds / Medical research and welfare

The Lord Dowding Fund supports better methods of scientific and medical research which replace the use of animals.

Since being founded in 1973, the Lord Dowding Fund has awarded grants to researchers working in a wide range of fields including breast and lung cancer, microsurgery, Parkinson's disease, cataracts, toxicity testing of dental fillings, cot deaths, product safety testing, kidney research, schizophrenia, biotechnology, hepatitis B, pain, infertility, tissue engineering and vascular disease.

It is a myth that animals are indispensable to research. We can have solid, scientific medical research without making animals suffer for progress. The Lord Dowding Fund can save animals and help people, but only with your generous support.

Thank you.

### Animals and birds

The Lord Whisky Sanctuary Fund is a lifeline for animals of all kinds.

We provide sanctuary to animals who become homeless or who have been injured or abused and vital veterinary care to those on low incomes. We also provide cattery/kennel facilities for your pets whilst you are away from home.

Lord Whisky was named after a Jack Russell who came to live at the Sanctuary when he was four years old, having had six previous homes. He lived with the founder, Margaret Todd, and her family until he had to be put down at the age of 22. Because of his personality it was decided to name the charity after him.

Since then there have been hundreds of 'Lord Whisky's' plus cats, rabbits, horses and donkeys, many of whom go on to loving homes. Others who, like Lord Whisky, have special needs remain at the Sanctuary for the rest of their lives, enjoying the lovely Kent countryside. The charity receives no government funding and relies entirely on donations and legacies to continue its contribution to helping animals and owners.

The aims are adhered to without exception and the interest of each individual animal is our primary concern. Expediency is never a consideration and each animal is welcome to stay in our care for as long as it takes for that special home to come. We make no apology for looking for the right homes for each animal and not animals for people. This does, of course, work to the advantage of the new owner

No animal accepted is ever destroyed.

### Social services and welfare

Twenty three years ago, our Founders Mary and Janet saw firsthand the real need for specialist support for families of missing people; and since then we have become experts in the field. Missing People is the only charity of its kind in the UK. Every year, 250,000 people go missing in the UK. Of these, more than 130,000 are children and young people. You can help make a real and long-lasting difference to the lives of missing people and those left behind by making a special pledge to Missing People. For those who go missing, we offer a lifeline by phone, text or email 24/7 to help them find safety. For their families there is a pain that won't end until their loved one is found. We never give up on either of them. Legacy gifts ensure that we will be able to provide this kind of support for years to come. ### Animals and birds

The National Animal Welfare Trust (NAWT) is a rescue and rehoming charity operating across the south of England. We are home to a surprisingly wide variety of animals across our five centres, primarily

cats and dogs, but also farm animals and small domestic pets too. We provide food, warmth and veterinary treatment to those animals in need of care, prior to finding them their forever home - however long it takes. Every animal remains in our hearts long after a new home is found and we continue to provide advice and guidance to support pet and owner in their new lives together.

A Pet Care Card is also a free service that the charity offers, guaranteeing peace of mind, knowing that the pet's future will be a safe and happy one after the owner has gone. If it is the wish that the pet be looked after by NAWT then suggested wording can be provided for use in any Will.

NAWT never stops caring and is totally reliant on the generosity of the public for donations and legacy gifts to support its valuable work. Thank you.

### Medical research and welfare

For anyone a diagnosis of cancer is a devastating, life changing moment. For people diagnosed with pancreatic cancer that diagnosis is especially difficult as pancreatic cancer has the highest mortality rate of the 21 most common cancers.

Of the 8,800 people diagnosed in the UK this year, 95% of them will be dead in five years' time. Survival rates have remained virtually unchanged in 40 years.

Pancreatic cancer is tough.

- ▶ Tough to diagnose
- ▶ Tough to treat
- ▶ Tough to survive
- ▶ And it will be tough to change that. But we're ready.

We're taking on pancreatic cancer together. For too long this disease has been side-lined. We want to make sure this changes.

By supporting Pancreatic Cancer UK you are helping us to:

- ▶ run the UK's only pancreatic cancer-dedicated Support Line giving thousands of patients and their families direct access to expert nurses;
- ▶ campaign to increase awareness of the disease
- ▶ commission innovative and vital research to find better, more effective treatments

Leaving Pancreatic Cancer UK a legacy gift is an easy way to donate to the charity to leave a legacy of hope for those with pancreatic cancer.

### Medical research and welfare

Prostate cancer is the most frequently diagnosed cancer in men. In the UK, over 45,000 new cases are diagnosed every year and over 11,000 men die of the disease.

The treatment for life-threatening prostate cancer, hormone therapy, was developed in the 1940s. Because hormone therapy is still the most effective treatment, survival has not improved significantly for over 70 years. That is why the Prostate Cancer Research Centre is dedicated to developing more effective therapy to improve the survival of men with advanced prostate cancer.

Please consider making a bequest to the Prostate Cancer Research Centre. Your legacy will help towards a cure for the next generation of men suffering with prostate cancer.

### Animals and birds

Redwings believes that every horse, pony, donkey and mule has the right to a happy and healthy life, free of fear and neglect.

The 100% publicly funded charity rescues neglected and abandoned horses from all over the country, giving them a safe place to live for the rest of their days, and is currently home to over 1,500 – making Redwings the UK's largest horse sanctuary.

As well as providing a place of sanctuary to rescued horses, Redwings has five visitor centres in England and Scotland that enable supporters to see how their kind donations really can make a difference to horses and donkeys in need.

Redwings' Aylsham Visitor Centre in North Norfolk was funded by the gifts people had left in their Wills and has been vital in enabling the charity to continue to provide homes for the increasing number of abandoned horses in desperate need of love and care.

Gifts in Wills make up the largest proportion of Redwings' income and the charity simply wouldn't be able to exist without them. Remembering Redwings Horse Sanctuary in your Will is a wonderful way to support the charity's work and leave a lasting legacy that will help them to help horses and donkeys for generations to come. Whether your gift is large or small, every donation makes a real difference to the future of Redwings' residents.

*'You can help our operation be a success'*

With 4.2 million surgical operations carried out every year in England alone our aim to maintain and advance surgical standards in patient care has never been so important. Some operations are minor, while others are life-saving or will dramatically enhance the quality of life. In every case, the patient places their trust in the hands of the surgeon. A registered charity, The Royal College of Surgeons of England exists to drive forward standards in patient care.

Saving lives, the relief of pain and improved quality of life through surgery is the result of research, education and training into new techniques, technology and the understanding of disease. To fund these vitally important programmes the College relies heavily on legacies and personal gifts from friends and supporters who share our aims.

Please support The Royal College of Surgeons of England with a legacy gift in your Will and help us train and equip the surgeons of the future.

The College is delighted to provide speakers at local and national events to talk about present advances in surgery, the history of surgery or topics of particular interest or concern.

### Religious / Education

The Royal School of Church Music (RSCM) is an ecumenical Christian charity committed to promoting the study, practice and improvement of music in Christian worship. We support clergy, musicians and lay people to achieve a deeper understanding of how music can enhance worship, and we provide education and training for all who contribute to music in worship to serve their churches and worshipping communities well. As a leading publisher of church music, the RSCM is able to sustain, develop and make available the broad repertoire that makes up church music today. Further, the RSCM supports a world-wide membership of churches, schools and individuals, and is itself sustained by thousands of donors and volunteers worldwide.

Any one of us can make a lasting and significant contribution to the Royal School of Church Music. Our legacy donors come from all walks of life but are united by a desire to make a difference to church music far beyond their own lifetimes. The bequests that they make, big or small, support the churches, musicians, and congregations that they leave behind.

### Social services and welfare

Britain is in a housing crisis. Times are tough, rents are rising, and many families are struggling to keep a roof over their heads, let alone get on the property ladder. For others, redundancy or illness can make people fall behind on the rent or mortgage. And every day, millions of people wake up in housing that's run down, overcrowded or dangerous.

At Shelter, we hear from people suffering from health problems and mental health issues, such as depression and stress, and families whose children are missing out on their education or are being bullied – all as a result of bad housing or homelessness.

That's why we provide free, confidential advice and support via our website, helplines, and face to face local services. We help people to find and keep a home in a place where they can thrive, and we tackle the root causes of bad housing by campaigning for new laws, policies and solutions.

### Shelter believes everyone should have a home

To continue this work, we rely heavily on the gifts that supporters leave us in their wills. That's why remembering Shelter in your will is one of the most important ways that you can help.

### Animals and birds / Conservation / Education

Specialising in hedgehogs, Tiggywinkles, The Wildlife Hospital Trust, has been working for over 35 years rescuing, treating and rehabilitating sick, injured and orphaned British wildlife. We have proved beyond doubt that most wild animal and bird casualties can be saved and released back to the wild.

The wealth of expertise and knowledge in the care of a wide range of species, much of it previously unrecorded, can now be passed on to others. Our commitment to practical education plays a vital part in the future conservation of wildlife and as an accredited centre opportunities are now available for 16+ years' to gain a City and Guilds qualification in animal care.

Les Stocker, Founder of Tiggywinkles, was awarded the title of 'Laureate' in the International 1990 Rolex Awards for Enterprise for his work in wildlife conservation and establishing Europe's first Wildlife Teaching Hospital. This was the first environmental Laureate to be awarded to a project based in Britain. He was also awarded an MBE by her Majesty The Queen and, more recently, the prestigious Honorary Associateship of the Royal College of Veterinary Surgeons.

Dependency on public compassion underpins the work of a committed team of veterinary staff and volunteers dedicated to providing the best care and medical expertise for their patients. We need your help to expand our work enabling us to save more of Britain's deer, badgers, hedgehogs, owls; in fact all British wild creatures. For this work to grow and thrive it is your legacy that will help forge a secure path for wild animals and birds for many years to come. Please think about ensuring their security.

We are happy to commemorate all who generously remember the Wildlife Hospital Trust in their wills by inscribing their name on a plaque in our Remembrance Garden. Your gifts are also welcome in the form of a donation or by becoming a friend of Tiggywinkles.

UFAW is an internationally-recognized, independent, scientific and educational animal welfare charity concerned with promoting high standards of animal welfare. It works to improve animal lives by:

- ▶ promoting and supporting developments in the science and technology that underpin advances in animal welfare
- ▶ promoting education in animal care and welfare
- ▶ providing information, organizing meetings, and publishing books, videos, articles, technical reports and the leading scientific journal Animal Welfare
- ▶ providing expert advice to government departments and other bodies and by helping to draft and amend laws and guidelines.

UFAW believes that by making rational judgements based upon scientific study, lasting advances can be made in the way we look after animals.

For UFAW to continue improving the way animals are treated and cared for around the world, your support is essential. Please help us to continue this important work through a donation or legacy.
